Arqstone
the essence of limestone

Made in Spain

The essence of limestone

La esencia de la piedra caliza

A surface that captures the essence of limestone softened by time, reinterpreted with a contemporary touch. Its background, featuring delicate mineral speckling, adds depth without being overpowering, creating balanced, timeless spaces.

Its subtle, continuous pattern creates a uniform look, making it ideal for projects where visual calm and material elegance take center stage. Perfect for minimalist or industrial-style architecture and interior design, this collection blends naturally into any setting, from residential homes to commercial spaces.

Key features: limestone aesthetic, low pattern variation, uniform look. Ideal for continuous flooring and wall cladding.

Una superficie que captura la esencia de la piedra caliza suavizada por el tiempo, reinterpretada en clave contemporánea. Su fondo, matizado por un delicado moteado mineral, aporta profundidad sin estridencias, creando espacios equilibrados y atemporales.

Su gráfica sutil y continua permite una lectura uniforme, ideal para proyectos donde la calma visual y la elegancia material son protagonistas. Perfecta para arquitectura e interiorismo de inspiración minimalista o industrial, esta colección se integra con naturalidad en todo tipo de ambientes, desde residenciales hasta espacios contract.

Características clave: estética piedra caliza, baja variación gráfica, look uniforme. Ideal para pavimento y revestimiento continuo.
