Glassy
Texture, color and shine

Made in Spain

Texture, color and shine

Textura, color y brillo

Glassy explores the balance between geometry, texture and light through a delicate relief pattern that brings rhythm, depth and a distinctly contemporary character. Its essential design transforms the ceramic surface into a subtle yet sophisticated decorative element.

The glossy finish enhances its geometry through an interplay of light and reflections that shifts with the viewing angle and illumination, accentuating its tactile dimension and distinctive textile-like appearance.

Available in White, Blue, Green and Sand, **Glassy** offers a balanced palette of soft, natural tones designed to complement one another and harmonise with a variety of materials. A versatile and elegant collection where texture, colour and shine come together to create spaces with depth, personality and a distinctive identity.
